ABOUT WETWO

Wetwo is a dynamic design, manufacturing, and sales company specializing in high-quality packaging solutions for the beauty, personal care, fragrance, and pet care industries. We create innovative bottles, containers, and packaging components that elevate brands worldwide.

Our Brand Story: The Power of "We Two"

Founded in 2020 by two visionary female friends, Wetwo embodies the spirit of partnership - "We Two." Our name reflects our core belief: success is built on collaboration. We saw an opportunity to revolutionize packaging by integrating diverse materials and services under one roof. Our mission is to simplify the supply chain, offering clients a single, reliable source for holistic packaging solutions, backed by proactive communication and unwavering support.

Why Choose Wetwo?

Wetwo is more than a supplier; we are your committed partner in packaging excellence. We combine creative design, meticulous production, and unparalleled service to deliver solutions that protect your product, enhance your brand, and streamline your operations. Let us help your brand make its mark.

Partner with Wetwo for packaging that inspires.

Sustainability isn't a trend – it's our shared responsibility. As 'We Two', we grow alongside partners who champion mindful innovation.

At Wetwo:

- Meet Conscious Consumer Demand

PCR
POST CONSUMER
RECYCLED MATERIAL

SUGAR
CANE

MONO material
100% RECYCLABLE

MONO material:

A mono-material is a product which is only composed of a single type of material. Such as Mono PP material, Mono paper material.

Because they only consist of a single material, mono-materials are typically easier to recycle than products made from different things.

An added benefit is that they generally use less energy to recycle because a 'pre-stage' of splitting or dividing the various materials apart doesn't have to be taken into account. The overall recycling process is, therefore, faster, more efficient, less energy-intensive and more cost-effective.

Products:

- 100% PP Compact
- 100% PP Lipstick
- 100% PP Lip Blam
- 100% PP Deodorant
- 100% PP Jar

PCR
POST CONSUMER
RECYCLED MATERIAL

PCR plastic:

PCR plastic is less wasteful than new plastic. It reduces the amount of waste produced and collected making it not only better for the environment by producing less waste in landfills and water sources but also by reducing your carbon footprint having a positive impact on our Earth.

Products:

- PET Bottle
- PET Jar
- HDPE Bottle
- PP Airless Bottle
- PP Lotion Pump
- PP Jar

**THE PROBLEM
WITH PLASTIC
AND OUR OCEANS**

**8 MILLION
METRIC TONNES
OF PLASTIC
IS DUMPED INTO
THE OCEAN
EVERY YEAR**

THE TOP 3 ITEMS FOUND IN OUR OCEANS:

1,140,222 FOOD WRAPPERS

1,065,171 PLASTIC BOTTLES

1,019,902 PLASTIC BAGS

Many marine species including turtles, fish, whales and seabirds consume or get trapped in plastic, which often results in death. They have been found with plastic bits in their stomachs, as well as plastic chemicals which have leached into their bodies.

**THE CHANCES ARE THAT IF YOU ARE
EATING SEAFOOD
THEN YOU ARE ALSO GOING TO BE...
EATING PLASTIC**

80% of all marine debris found in the ocean is land based, and 80-90% of marine debris is made from plastic!

**BY THE YEAR 2050 THERE WILL BE
MORE PLASTIC
THAN FISH
IN OUR OCEANS**
